

The 2012 Skipping Stones Honor Awards

Each year we recognize outstanding books and teaching resources with our annual **Skipping Stones Honor Awards**. The honored books promote an understanding of cultures, cultivate cooperation and encourage a deeper understanding of the world's diversity, ecological richness, respect for multiple viewpoints and close relationships within human societies. Bound to provide a great reading adventure, our selection offers a variety of learning experiences for readers of all ages.

The winners are listed in three categories—**Multicultural & International Books**, **Nature & Ecology Books**, and **Teaching Resources**. Our special thanks to the many reviewers who helped us select these 25 books and a DVD. We believe good books offer an affordable and exciting way to explore and understand cultures, places, societies and their histories. Welcome to the wonderful world of books!
